

**Alabama Department of Environmental Management'
Administrative Code for Division 7
Water Division-Water Supply Program**

Chapter 335-7-13 Laboratory Certification

Summary of Reasons Supporting the Adoption of Proposed Revisions

Chapter 335-7-13 Laboratory Certification is being added to codify the requirements for laboratories that wish to analyze drinking water in Alabama. This will formalize the procedures that have been in use by the Department for many years in order to maintain primacy for its Public Water System Supervision program.
