## **ADEM and ASU Announce Community Training Event on Environmental Issues**

The Alabama Department of Environmental Management has partnered with Alabama State University to provide an opportunity for local community members to receive training on how to obtain information related to environmental issues within their community. The training event will highlight topics such as how to file an environmental complaint and how to access information about environmental activities within local communities. Local citizens that are interested in environmental issues are invited to attend along with elected officials, students, faculty, and other guests.

**WHAT:** Training on Environmental Issues Within Local Communities

**WHO:** Local Community Members  
Alabama State University Representatives  
Alabama Department of Environmental Management Representatives

**WHEN:** Tuesday, November 15 from 6:00 p.m. --- 7:00 p.m.

**WHERE:** Life Science Building Auditorium --- Hall Street  
Alabama State University Campus  
Montgomery, Alabama
