ADEM and Bishop State Community College Announce Community Training Event on Environmental Issues

The Alabama Department of Environmental Management has partnered with Bishop State Community College in Mobile to provide an opportunity for local community members to receive training on how to obtain information related to environmental issues within their community. The training event, scheduled for Thursday, November 17, at the Main Campus of Bishop State, will highlight topics such as how to file an environmental complaint and how to access information about environmental activities within local communities. Local citizens who are interested in environmental issues are invited to attend along with elected officials, students, faculty, and other guests.

WHAT: Training on Environmental Issues Within Local Communities

WHO: Local Community Members
Bishop State Community College Faculty, Staff and Students
Alabama Department of Environmental Management Representatives

WHEN: Thursday, November 17 from 5:30 p.m. --- 6:30 p.m.

WHERE: Bishop State Community College --- Main Campus
Business Technology Center --- Room 209
Mobile, Alabama
