ADEM Celebrates Earth Day 2015 in Selma

On April 30, ADEM held an Earth Day Event in Selma at the School of Discovery

SELMA - The Alabama Department of Environmental Management celebrated Earth Day 2015 in Selma by holding a special event for more than 120 middle school students.

On Thursday, April 30, students at the School of Discovery learned about environmental programs that are implemented on a daily basis to protect and preserve Alabama's air, land, and water

resources.

The students received information and hands-on demonstrations from ADEM staff related to a wide-range of environmental programs including fish tissue monitoring, water quality sampling, air monitoring, recycling, solid waste disposal, and efforts that ensure Alabamians are provided with clean, safe drinking water. Students also learned about career opportunities at ADEM and will be encouraged to pursue careers in science-related fields.

The Earth Day event took place from 9 a.m. until noon.
